

BOEING COMMERCIAL AIRPLANES, FABRICATION DIVISION – AUBURN PLANT (Boeing Auburn Plant)

The Washington State Department of Ecology (Ecology) invites the public to comment on a proposed interim cleanup action for Area 1 at the Boeing Commercial Airplanes, Fabrication Division, Auburn Plant located at 700 15th Street SW, Auburn, WA 98002

The Boeing Company will perform an interim cleanup action beneath Building 17-05, which is located at the northern end of the Auburn Plant. This interim action will be performed to add a non-hazardous mixture to ground water under the building in an effort to promote the destruction of contaminants that remain in the ground water at that location. Ecology has determined that this interim action will create no significant adverse impacts to the environment. Therefore, Ecology is issuing a State Environmental Policy Act (SEPA) determination of non-significance (DNS) for this activity.

Documents for Public Review:

The Interim Action Work Plan, State Environmental Policy Act (SEPA) Checklist, and Determination of Non-Significance (DNS) are available for viewing at the following locations:
